Timetable a bit optimistic: logistics sometimes took more time than expected

2. Organisation and logistics

Lack of internet access

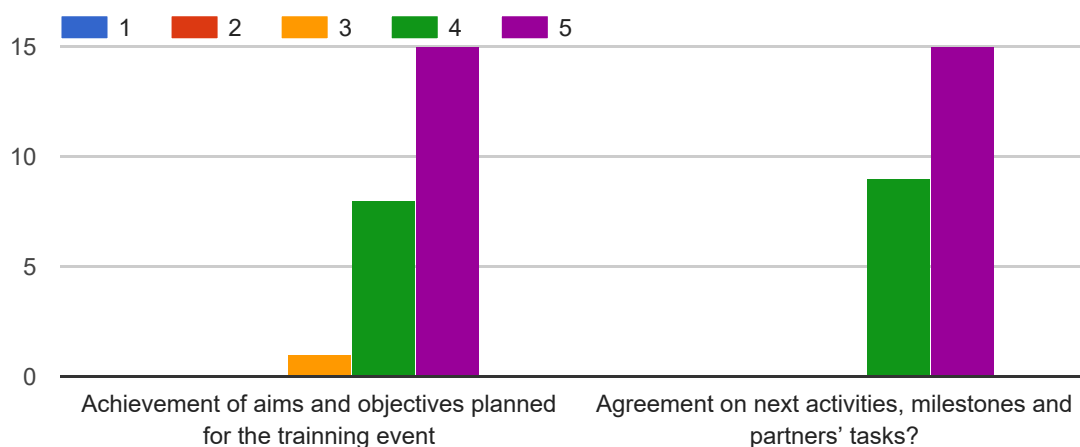

-

There could be more moments in small working groups

Very hospitable. Really appreciated the effort.

Transportation was okay but took quite some time because school was far from hotel. For meetings only a meeting room in Vasto would have been better. But hospitality and food at the school were great. Wifi at school was hardly working but, no great issue. Relatively much time for tours and tourist visits, may be reduced a bit next visit. Wine tasting preferably at the end of the afternoon/end of the working hours! Same for Gin tasting :)

After a visit to a school or company, it would be nice to have time to evaluate and create new ideas with the things we saw

I couldn't stay till the end , but I think everyone agree with next activities

Better ideas gained on the curriculum issues in various partner countries, not yet a good overview of how to improve, how to summarize in the proposed E-book. Maybe in UK! Next visit suggestions have been made: some reflection time with the group after each school visit. More discussions in smaller groups and less time in the plenary group.

Sempre que propostas são feitas sobre formas diferentes de recolher dados, ou outras, em minha opinião, devem ser acolhidas logo que não alterem o desenho inicial e fundamental do projeto.

4. Partnership

more time for group work and discussion - as discussed as a group at the end of the meeting.

Participation at school better in smaller groups or even individually (if language and class management allows). Again: smaller group exchange will enable more participants to really participate, to speak out, as we did o in Poland

5. Work collaboration

Excelent work!!!

Pleasant way of coordination, respect for everyone. Participation was even better in subgroups as stated above

7- Others Comments and Suggestions
